

Axis 4

POR FESR Emilia-Romagna 2014-2020

Start day:
June 2019

Duration:
17 months

Total cost:
€ 123.796,25

Regional contribution to the
Municipalities' Union of the
Savio valley:
€ 34.568,73

Co-financing by the
Municipalities' Union of the
Savio Valley:
€ 89.227,52

Funding programme:
**European Regional
Development Fund,
Regional Operational
Programme Emilia-
Romagna 2014-2020**

**Axis 4 – Priority of
Investment "4C" – Specific
Objective 4.1 Actions 4.1.1
and 4.1.2**

ENERGY REQUALIFICATION OF THE VERGHERETO CAPOLUOGO SCHOOL COMPLEX

OBJECTIVES

The project for the general renovation of the school building started in 2012 with the adaptation of the building under the seismic aspect (first lot) and continued with the second stage with the adaptation of the electrical systems and the external arrangement. The last functional section (for which it was requested the contribution), drawn up by the technicians of the Administrative Technical Service Sector of Verghereto, aims essentially to improve the energy efficiency of the building.

Therefore, the objectives of the project are:

- To carry out a structural building safety intervention;
- to achieve energy redevelopment of the building-plant system in order to reduce energy consumption.

EXPECTED RESULTS

Restructuring of the public building hosting the Verghereto Capoluogo school complex, including structural works and energy retrofitting.

ACTIONS

Energy redevelopment will be achieved through the following interventions:

- insulation of external coverings (maternal area);
- insulation of the dispersion floor, the unheated attic;
- insulation of external perimeter walls;
- replacement of windows and doors.

Furthermore, as part of the redevelopment project, all existing radiators will be equipped with thermostatic valves with low thermal inertia.
