

Mayor Adapt **The Covenant of Mayors for Climate and Energy**

What is it

The Covenant of Mayors for Climate and Energy (Mayor Adapt) is the new Covenant of Mayors initiative to involve cities in promoting the objective of the European Green Deal.

Objectives

The Mayor Adapt (officially launched on October 15, 2015) set the first common challenge to support the implementation of the 40% reduction in greenhouse gases by 2030, committing the cities to approve Local Action Plans for the Climate and Energy.

On April 21, 2021, the Mayor Adapt launched new 2050 goals to address new challenges:

- Accelerate the decarbonisation of territories, helping to keep average global warming below 1.5 ° C;
- Strengthen the adaption strategy at local level, making our territories more resilient;
- Increase energy efficiency to ensure safe, sustainable and accessible energy services for all.

Cesena Adhesion

2016_Cesena joins the Mayor Adapt

Cesena has joined the Mayor Adapt continuing the path started in 2009 with the adhesion of the Covenant of Mayors.

2019_Cesena approves the SECAP

Cesena has approved its SECAP (Action Plan for Energy and Climate), setting targets for climate reduction and adaptation to 2030.

2021_Cesena towards new goals by 2050

Cesena has joined the new campaign to contribute to the “European Climate Pact” which by 2050 asks cities to develop policies and interventions for the energy transition involving citizens, businesses and local stakeholders.
